

GEM NEWS

You may have heard the children talking about GEM cards or GEM super heroes...? Well, they have landed at Air Balloon! The children have the challenge to 'collect them all' by showing how powerful their brains are and using the powers... just like the GEM Superheroes themselves!

The GEM superheroes have the ability to EVOLVE and become more powerful! Once the children have gained the powers of the basic GEM superhero, they will get the EVOLVED superhero to work on more advanced powers!

Each year the children will collect a different coloured set of the GEM superheroes. So, by the end of year 6, the children will have a 'rainbow of powers' they have earned and used through their time at Air Balloon. Their mind will be healthy and they will have the skills needed in their brains to tackle their future!

Can you train your brain and collect them all?
